& SON LTD.

*Supplying Graphic Insight*

**Vehicle Graphics Installation Training Level 1 (VIT1) Date April 23rd 2015**

The 3M Vehicle Graphics workshop is not just for installers - benefits sales and marketing staff, design and production staff, and owners as well.

Learn how to:

- avoid the top 3 causes of graphics failure**
- reduce costs**
- grow your business profitably**

This workshop will focus on what it takes to sell and install graphics as well as understand what films and adhesives to use for a successful application. You will leave the seminar with more confidence and understanding of your products & services using practical techniques to ensure a successful printing & installation - and have fun at the same time!

In addition to a full vehicle wrap led by an expert installer, we have a Sprinter door for training on specific application techniques to successfully apply graphics in deep compound channels. We also have a Caravan back door for training on specific application techniques to successfully apply perforated window film onto curved glass.

Each one-day session will consist of 6 hours of training:

**2 hours instruction**

**6 + hours hands-on**

**Opportunity to purchase 3M™ Film and tools at discounted prices.**
